THE NATION'S BIRTHDAY.

The return of the anniversary day of the nation's birth is always received with a satisfaction and rejoicing which no other occasion evokes. The scenes and incidents so closely interwoven with that grand event are recalled with a vividuous almost. real. We seem to hear the stentorian tones of patriots proclaiming the most sublime principles promulgated since the world was created. We can easily imagine the feelings of those noble men whom appression. could not reduce, whose spirits were not to be crushed by a long series of infamous impositions, whose souls would not be down at the dictation of Wrong, personated by Crown. And as they banded together for common good, and all that was dear to soul and body, we can appreciate but not describe the inspiration pervading their entire system. We seem to hear the chime of that darling old bell, as it pealed forth peace and liberty. That chime, the echoes of which will reverberate in our ears, inspiring us with a love for liberty and our common country, until we we came. The succeeding events provement at Pittsburg and Louisforce themselves upon us with such rapidity that we are led to contemplate the present instinctively without charging our memory. As we pause a moment to glauce back we There have been things which brought month of last year. GERERAL GRART visited the house of lords Monday evening and stood at the foot of the throne, The Earl of Carnarvon, immediately upon percoiving the general, quitted the treasury bench and had a chat with him. General Grant subsequently proceeded to the house of commons and remained a few minutes in the gallery for distinguished victors.

CALIFORNIA LEGISLATURE.

The Oakland Transcript has figured

out that if the Republicans can elect their Legislative ticket in all the counties that gave majorities for Hayes in California, they will secure the Assembly by a majority of two, and the Democrats will have the Senate by six majority. Democratic majority on joint ballot, four. We are afraid the California election will turn out just about like the last election for members of Congress. It was very close, but the Democrats that Key wishes to resign so as to rewere conceded a slight majority, but lieve the President from the ridical the roll is now made up and they have sixteen. California will surely elect a Democratic Legislature. That crat, and that McCrary in view of the party has a large percentage of the recent expression of opinion of his hold-over Senators, and nothing short of a political revolution can prevent them from electing a sufficient | Sherman is under strong pressure number of legislators to give them a from the radicals to leave the Cabigood majority on joint ballot. Certain counties in California are like has gone cruising to Maine to see certain counties in Kentucky, no one Blaine and talk the thing over. but a Democrat has a ghost of a show. The Republicans too are divided and inharmonious. Again are on the defensive. The Sargent Senator Grover of using money for crusade has not been without its effect, disastrons, too, in its nature upon the Republican party. The witnesses summoned include many Democrats are like the happy family; prominent politicians of the State GOODS MARKED OUT IN no bickering, no dissension, no quarreling; simply inspired with a desire to win first, and then divide the spoils. It may be safely set down as thing of importance the Commission one of the signs of the times that the next Legislature of California will be Democratic, and that Gov. Irwin's pole will knock down the Senatorial persimmous.

DECLINE IN BUSINESS.-A careful comparison of clearing-house returns of eleven leading cities of the United States show a gradual decline in business from last year, even at Boston, which has heretofore held its own. At Baltimore the decline was remarkably large last week. The only encouraging feature is the steady imville. There are small gains at New York and New Orleans, attributable chiefly to speculative operations. There is no evidence of any general improvement in other business, even in comparison with the very dull weeks ending June 16 have fallen off as compared with the same time last \$10,000,000, as against \$6,000,000

The Silver Problem. Washington, July 3.—It is stated on good authority that the President will make no authoritative announcement of his views on the silver question until he sends his first message to Congress. He will then clearly explain his ideas. He is understood to favor the conditional restoration of the double standard through an international commission, so that the interests of both the creditor and debtor classes may be proticted. Small Pox.

Rene Has Two Cases of Variolaid.

There arrived here yesterday morning from San Francisco a Mr. John Taylor and wife, who took up quartors at the Pollard House. During the forenoon Mr. Taylor noticed small eruptions on his wife's face, and suspecting it might be small pox consulted one of our doctors, who propounced it a very taild case of virioloid. Shortly after the Dr. noticed Mr. Taylor closely and found that he also had it. The County Commissioners were immediately notitled, and ordered a pest house erected at once. A corner of the Poor Form was selected, and a house 16x20 built dewing the afternoon, and last evening Mr. and Mrs. Taylor were removed , bere, provided with blankets, bedding and all necessary clothing, a nurse, etc. The Dr. informs us that the cases are very mild ones. and that there is no particular cause for alarm that the disease will spread.

Where to Amuse Yourself To-Day.

One thing is certain, and that is that our citizens are determined not to let the 101st anniversary of our Independence go by default. What with picnics, excursions and dances the average Renoite finds himself bewaldered which to honor with his presence. The following picnics are presented to the pleasure seeker: Bo ver's Mansion-s beautiful place: Pyr, unid-an attraction surely; Peavine--just a nice excussion; Glendale-than which there is none cosier or greener; Wellman's Island-a place just ada ried to picnics; Summit-at which t hey add racing to the other features. Then having paid your respects to a te of these, you the perplexing question.

Serious and Probably Fatal Accide. " at Wadsworth.

One of those horrible accidents which make everybody shudder happened night before last at Wadsworth. A. C. Thornton tried to get a ride on the vestern bound overland train by miding on the brake beam, getting on s the train was pulling out of Wadsworth. The train had just crossed the bridge when Thornton lost his hold and was run over, the cars passing over both legs and crushing them into a shapeless mass, and otherwise injuring him. As soon as it was made known to the conductor the train was backed up and the unfortunate man brought to this place and taken to the County Hospital, Thornton, having sufficiently revived to amivive an operation, both legs were successfully amputated by Drs. Bergman and Bishop, but the physicians have very little hopes of his recovery. Will this be a lesson to those who racklessly endanger their limbs and lives on the cars? We hope that this will be the last of this class of socidents in tais vicinity.

Almost a Fire.

Monday afternoon between one and two o'clock a fire was discovered in Hon. C. H. Eastman's corral, two and a half miles from town. The smoke was first discovered by Wm. Steele, and with the help of a Chinaman the flames were extinguished. It burned a place fully eight feet square, and in five minutes the barn would have been a rolling mass of find the McGinley Sisters in new fire, as it was well filled with dry plays at the Opera a Touse, and to hay. The accident happened by a wind the day up, a grand ball for the spark from the hired man's pipe fallbenefit of old 48-a locomo, 'ive which ing among the chaff in the yard, and shipment ever made from the Comdoes good work at fires. W. uch? is there smouldered till the wind fanned stock-immense as many of them it to a flame. The insurance had ex. have been. One hardly realizes how have been quite a loss to Mr. Eastman had the fire proved a success.

Charged With Arson.

Muggie Hart, alias Price, one of the demi nonde, was up before Judge Richardson yesterday, accused of erson. On Monday, it is said, she she would burn the lown, and that evening built a bonfire in the alley. Later at night, say between 2 and 3 the next morning, she built another bonfire in the rear of one of the honses of ill-lame, and was seen running away from it. Luckily it was discovered and put out, else a por tion of town might now have been in ashes. All it needed was a good wind

The Con. Pot.

We are gill to hear such favorable news from the Con. Pos. The ore body in the south drift is still on the increase in width and quality. The drift is now in seven feet of solid quartz, and no walls cut yet. The result of yesterday's assays shows all the way from \$96 to \$565. An average assay of the entire width of the ore body, including all ledge matter, was \$249 61. The ore is nearly free milling being free from lead, copper, sulphur and satimony. Work is being pushed vigorously.

It is seldom that a business house yet this is sometimes done. An instance of this kind has recently occurred right here in this town. Cohn for seventeen prisoners. The pomp & Isaacs, next door to the Postoffice, and circumstance of celebrating will have come into this city recently, yet not affect them. there is not a house better known Smith, 2; H. W. Barlow, 263 10; D. nor one more popular or doing a better business in their line in the town. People were a little skeptical at first when they said that by reason of their connections in San Francisco and Virginia City they could and would sell their goods cheaper than any other house in town; but they made their vaunting true and it pleased the people well. The goods purchased there pleased the people too. It fact there were no better to be had as the end proves and so the house went right on and up, and is second to none in any respect. Three things have boosted them right along, First, good goods; second, low prices; third, attention to business. The advance made is worthy of special record as unprecedented in the history

THEN AND NOW .- One year since prescriptions were from 75 cents to six dollars. To-day the same class of prescriptions range from 25 cents to three dollars. This unexampled reduction in price being caused by theestablishing of Hoole's Pharmacy, whose successful opposition to imposition and extortion places the establishment in the front rank of family drug stores and the leading prescription store of our town being an ample reward for our honest endeavors in the interest of the publie and the building up of a trade based upon fair and legitimate profits.
